You will TURN IN a short essay at the end of the day, rather than going home and writing a report!

Safety

1. LISTEN to the instructor at all times!!!
2. Do not attempt to leave or enter the bus when it is moving.
3. Take notice of who is near you on the bus, so that we can be sure of where everyone is when it is time to leave each stop.
4. STAY OUT OF THE ROAD and out of the path of other people!
5. LISTEN to the instructor at all times!!!
6. Do not climb cliffs! Doing so will cause erosion - rocks and debris (and maybe your body) might fall onto the others, and the cliffs don't need any more help being eroded!
