

Stanley,

I visited you today for an educational plan for my federal loan, and we discussed your past work at Lanterman and about me trying to get the psych 1a class I am required to take for the psych tech program waived. I wanted to thank you for all your help today, because in my experience with counselors I know it is rare to find someone who truly cares about each individual student. I appreciate your consideration and willingness to help me--it is those types of acts that reignite my passion to succeed in my career! I was hoping it would be possible for me to contact you should I ever have any more questions regarding my education/future career? Thank you again for all your help!

Brittney K.
